***Response to Arguments***

**Claim Rejections - 35 USC § 102**

Claims **30-37** have been rejected under 35 U.S.C. 102(b) as being anticipated by **Melcher et al.** (US Patent No. 4,217,183).

The rejection of claims 30-37 under 35 U.S.C. 102(b) as being anticipated by Melcher et al. is as applied in the Office Action dated May 5, 2004 and incorporated herein. The rejection has been maintained for the following reasons:

Applicants state that Melcher does not teach an apparatus comprising a pulse laser. Instead, Melcher only discloses continuous lasers, such as argon lasers or krypton lasers, and makes a pulse beam by chopping that continuous laser beam mechanically. Thus, the apparatus of the present invention is clearly different than the apparatus described in Melcher.

In response, the "pulse laser" as presently claimed does not recite any specific structure. Thus, the "pulse laser" as presently claimed is opened to the pulse laser arrangement disclosed by Melcher which comprises a light source **22** and a modulator **28**.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

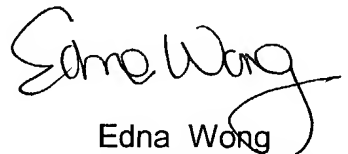

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
